

CORAZZA GIOVANNI SRL

Over 50 years of experience in the precision mechanics field.

Corazza Giovanni SRL is a family company that has been working in the precision mechanics for third parties since 1964. It produces small, highly technological items for many sectors. The processes are carried out using CNC machines. The production process is managed through an IT system that supports all phases of the

process. The quality management system meets ISO 9001 requirements and is certified by RINA.

Corazza Giovanni SRL is a trustworthy partner thanks to the quality of its processes, its expertise and flexibility.
