

Where ideas have been taking shape for more than 40 years.

SIOM

Over its 40-year-long activity, Siom established as a reference point in the field of designing and injection moulding of plastic materials, offering a complete service that includes prototyping and carrying out finishing details.

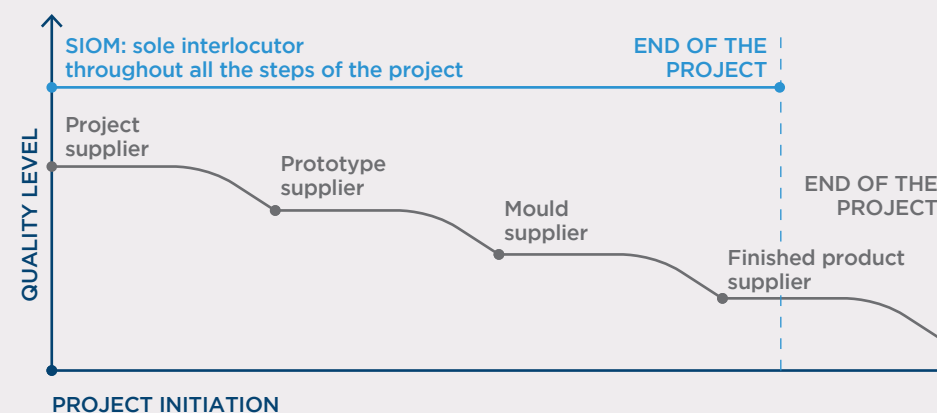

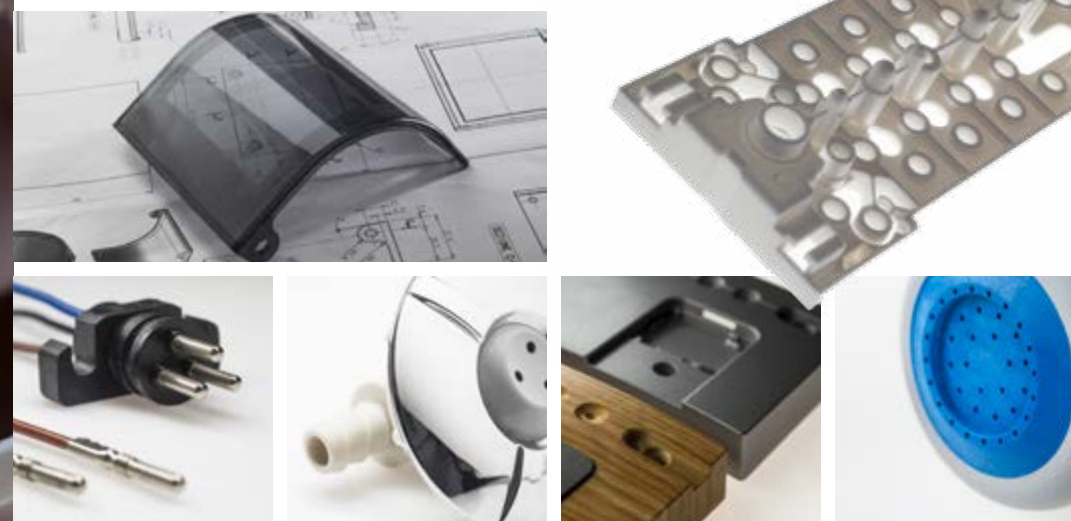

Siom, supplying a complete service from the initial idea to the finished product, becomes an only reference point for a serene and immediate response. Thanks to this relationship based on trust and cooperation with the client, we can offer perfect solutions with a perfect price/quality ratio.
